chants are in easy financial circumstances noticed in the dry goods market and in fruits and vegetables, all being firmer in trade, while export business shows some products report their business as improving and prices steadier in tone, with a mission row, with the milder weather of yesterday, delayed shipments of Irish and forwarded in considerable quantities. Prices on all kinds of fruits and vegetables are very firm. Oranges have an advancing tendency, but to-day are unchanged. Lemons are weak at quotations and are moving slowly. The produce markets are active. Eggs are fast movers and have advanced to 28 cents a dozen, being in lighter supply

than at any time the last year. Storage

eggs are exhausted. Poultry is in light sup-

ply as well, and is in very strong position

as to prices. Butter is very firm at quota-

tions, if choice. Considerable poor stock is

NEWS OF LOCAL COURTS.

Laura K. Weaver's Complaint. Laura K. Weaver yesterday filed suit

against her husband, John F. Weaver, for divorce. She alleges that he left home in the month of April, 1899, with the avowed purpose of hunting work and never came back. She says she heard from him until January, 1900, since which time he has not communicated with her.

Will of Juliana Snyder.

The will of Juliana Snyder, probated yes-

terday, leaves all of her property to her husband, George Snyder, who was appointed administrator of the estate with the will annexed, giving a bond of \$200.

SANITARY GAS STOVE ..... A decided innovation in gas heating. Unique, scientific. Destroys injurlous prodnets and organic matter by intense neat. ENGLISH.-From opinion of George Rudd Thompson, F. E. C., F. M. R. S., etc.,

Public Analyst, Newport, Eng. 'In my opinion the maximum of heat is evolved by the combustion of the minimum of Gas, without any smell or undue dryness of atmosphere. The theory of stove is, in my opinion, perfect and the result ditto. The percentage of carbonic acid is not sensibly raised in a closed room after ten hours' burning, and the air is not dried to an appreciable extent. I am simply delighted with it, and am quite in a position to recommend it for offices, sick-rooms,

> Must Pay More Attention to Mileage. It is stated that on some of the roads the passenger conductors are not carrying out their instructions as to taking up mileage for fares. One of the chief troubles is that they are permitting holders of mileage to sign their names carelessly, and in some cases it is stated are allowing other persons to ride on borrowed mileage, using the interchangeable mileage that belongs to another person. The general passenger agents are looking into the matter, and have issued strict orders. There is trouble over half-fare rates and riding in sleepers on reduced rate tickets, and Chairman Donald, of the Central Passenger Association, has asked the general passenger agents to send him reports of all sales of tickets at ors, he having secured against one road evidence of one hundred violations of the rule regarding sales of tickets to sailors.
